WAF EP2 Grease (Multipurpose)

Market Applications:

The WAF EP2 Grease is general purpose NLGI No. 2 lithium soap grease containing an extreme pressure additive that permits simplification of lubrication in that this grease may serve as a rationalization grade in industry, mining, construction plant and equipment.

Benefits:

- Wide temperature range (-30 to 130 deg c)
- Multipurpose grease so reducing lubricant inventories
- Contain extreme pressure additives
- Good water resistance
- Good protection against rust
- Reduced maintenance

HANDLING, HEALTH AND SAFETY

Lubricants consisting of highly refined mineral oils with specific additives.

In normal conditions of use, these lubricants present no particular toxic hazard.

All lubricants, of any kind, should always be handled with great care, particularly avoiding any contact with the skin.

Prevent any risk of splashing, and keep away from combustible materials.

Store under cover and away from any risk of contamination.

PROPERTY

Appearance	Smooth/Light brown
Base	Lithium soap
Additives	Extreme pressure (EP), anti-oxidant, anti-corrosion
Oil Viscosity at 40 deg c cST	203
Drop point deg C	184
NLGI Classification	2
Operating temperature deg C	-30 to 130 deg C.

Pack size: 50kg, 180kg
